From The Desk Of Adam Khoo

Dear Frustrated Success Seeker,

Can I be dreadfully honest with you?

Because I know you want to know the truth about why **you find it so hard to just attain the success you want in life.**

And you observe how others can just seem to *flow* through life, **achieving breakthrough result after result and basically live the life of dreams!** They have that dream job, their business is successful, they live in that dream house, drive the fast cars and have the perfect family!

Doesn't that make you envious?

Maybe even angry?

Well let me tell you the truth...

It's NOT Your Fault That You Haven't Achieved the Results You Want In Your Life Yet!

Because it's something else that's been preventing you from attaining the success you deserve.

How do I know this?

Because you work your socks off every single day in pursuit of your goals. You put your sweat, blood, and tears into your job, career or business to just 'make it happen'.

You jot down your goals, you plan what steps you need to take to achieve them, you clock in 16 hour days (or more) and you work like a mad dog just so that, one day, **you will become *successful* and then you'll be able to enjoy the fruits of your labor!**

But that scenario just doesn't seem to pan out that way at all, does it?

You work your socks off, but it's someone else that gets that promotion you want, the recognition you deserve, and the success that's rightfully yours.

And you know what?

That exact same scenario is playing out everyday in offices and households everywhere and you are just **left frustrated at how life can just be so damn unfair!** And it's not even unfair in *your* favor!

And You Just Wonder Why Everything You Do Just Doesn't Seem To Work Out...

If all of this sounds depressing to you, let me first apologize, that's not my intention at all.

I'm just pointing out the facts and realities of how so many lives are being played out everyday because I know if you've been reading up to here, you understand what I'm talking about.

I'm here today to pass you a very important message. One that can make a whole world of positive difference in your life. And If you would be patient enough to listen to what I have to say, I assure you it would be worth your time.

You may be asking this question right now, 'What do I know about the difficulties or challenges you are facing right now?'

Well...

I Used To Be A Wash-Out, Drop-Beat Failure!

When I was eight, I **was expelled from school for misbehavior** and my parents had to go round the country begging other primary schools to let me study in their school. I was a total misfit.

I did so poorly for my primary school leaving examinations that I was rejected from ALL the secondary schools of my choice and I was dumped into a school called Ping Yi.

I was academically very weak and was always the slowest in class. I failed in four subjects of the eight I was taking and soon enough **I found myself placed at the bottom of my entire cohort.**

Not only was I poor in studies, I was also physically weak and mentally lethargic. I had poor social skills, I was bored, indifferent and soon I was labeled as a 'problem student'.

I joined the boy scouts in an effort to learn valuable skills and widen my social circle but after only six months, I was thrown out of the club because I couldn't pass the most basic test needed to qualify as a scout. I didn't even bother to try again.

To make things even worse, my cousins were gifted students and attended the best schools in the country. Because of that, **I really began to think I was born lazy, slow, unmotivated, maybe even stupid.**

Like most troubled teenagers, I soon found myself addicted to the TV and video games and I allowed myself to

sink into a catatonic stupor just to escape all the pain.

Did I want to be a failure?

No.

I wanted just as much like everyone else to be a success in life but no matter what I did or how hard I worked, things just screwed up and blew up in my face.

So What Does A Underachiever Like Me Have To Teach You About Creating Breakthrough Success?

Well... **if a total abject failure like me can breakthrough the 'failure' barrier and go on to achieve breakthrough results in life**, I guess I may have something that will interest you greatly.

So what 'breakthrough results' am I talking about?

From being an all out underachiever, I finally **cracked the success code and I made my first million at just age 26.**

SINGAPORE THE NEW PAPER/Thursday, September 07, 2006

He made his million at 26

Teachers found him capable but lazy. He found himself not interested in studies. Adam Khoo was expelled from St Stephen's Primary School for being disruptive. His parents hunted for a school which would accept him. Ngee Ann Primary finally did.

At Ping Yi Secondary, he finished at the bottom of the express stream.

In desperation, his parents sent him to Superteen, a motivational training camp. He came out a changed lad. Not only did his studies improve, he also began hatching ideas to make money off his fellow students!

Today, Mr Khoo (right) is 27 and a multi-millionaire. And he co-owns Superteen, along with four other companies with an annual turnover of \$20 million.

The Y scene

MR Adam Khoo was recounting stories of his growing-up years before 700 Nanyang Polytechnic students on Saturday.

As a member of the Singapore Chapter of the Young Entrepreneurs Organisation (YEO), he spoke to them:

"My parents went through a number of schools before Ngee Ann Primary finally accepted me. "It didn't really bother me. I was not interested in studying."

He made it to VJC, made the Dean's list in the Business Administration faculty at NUS, was a member of the university's Talent Development Scheme for scholars... and a millionaire by 26.

GROWING THE MONEY

"The money came from three avenues," he told The Y Scene.

"First, there was the training I conducted for schools. "I was paid \$5,000 a day for motivational talks. At some schools, it was \$1,000 an hour."

events like The New Paper Big Walk and the President's Charity Challenge's Project Y.

His third money-making scheme involved investing shrewdly — or, as he put it: "Making use of what I had learnt in my finance management course at university. "I invested in equities, unit trusts and property."

He bought a condominium unit and rented it out.

And why not... when he had a Changi bungalow to share with his parents?

Mr Khoo, who is married to his

I would safely assume that making a million bucks at age 26 is a solid measure of success to anyone.

I now own 4 businesses pulling **\$20 million** in revenue annually, I'm a bestselling author of 5 books and I've worked with big-boy companies and institutions like **Hewlett Packard, American International Assurance, Prudential, Singapore Ministry of Defence, Singapore Police Force, Singapore Telecoms, Lux Asia,**

From underachiever to millionaire

Entrepreneur Adam Khoo talks about his life, success, money and retirement

BY JEEVA ARULAMPALAM

I time is money, then perhaps getting an early head start is Adam Khoo's key to success. At the age of 15, motivational trainer and entrepreneur Khoo, one of Singapore's youngest self-made millionaires, was devouring books by Donald Trump and Warren Buffett. He then went on to run businesses while still in secondary school. At 17, he became a freelance motivational trainer. By 26, he had made his first million from his event-management business, fees from teaching schoolchildren how to be motivated learners, and stock-market investments. "When I was younger, I was extremely unmotivated and did very badly in my primary years," says Khoo. He was rejected from all six secondary schools that he applied to, he adds. "I didn't like reading and I would only read comics. My mum, who was a writer, used to persuade me to read but I just wasn't interested." The turning point in his life came after he attended a motivational camp that exposed him to the concept of Neuro-Linguistic Programming (NLP), a set of models and principles exploring how mind, language patterns and the organisation of human perception interact to create subjective reality and human behaviours. "I learnt that people who do well do so not because they are smarter, but because they just have better strategies for achieving their goals," he says. After reading more about NLP from Anthony Robbins' books, Khoo set two goals — to become a top student in secondary school and to enter the National University of Singapore.

I'm not showing all of these to impress you at all. **I'm showing you all of these to prove to you what IS possible in life if you know the secrets to how lifetime success is created.**

I'm showing you how someone like me, who'd never experienced any real success in life before, who'd never attained any breakthrough results, can go on to become a runaway success! I want to **prove to you, with the real-life success I've attain, how far a 'failure' can go in life!**

How did I achieve all this breakthrough success?

How did someone who got kicked out of school, got labeled as a problem student and suffering from a self-esteem issue go on to become a **millionaire at just age 26!**?

How did someone who was labeled a problem student, who my teacher said wouldn't go on to become anything substantial in life, now own 4 businesses, work with some of the biggest companies in the world, and become one of the top speakers in Asia?

And I think the BIG question that's on your mind right now is...

Can You Achieve The Same Level Of Breakthrough Personal Success Too?

And the answer is NO!

Not until you discover the secrets to achieving breakthrough success in life, you will forever wallow in the depressing deeps of mediocrity.

Why?

Because you and countless other good, honest people are working your socks off to provide the best of your family but somehow no matter how *hard* you work, that elusive pot of gold is always at the end of the next rainbow.

You can never seem to reach it!

Attaining Success Is NOT About Working Hard!

Now let me clarify this: I'm not knocking hard work at all. What I'm saying is that hard work alone is not going to cut it.

And you know this already.

How many people do you see working so darn hard everyday but they just can never seem to get to where they want in life? And I'll be bold enough to say that you are one of them.

And there's nothing wrong with that. It's just that you haven't found the right **success formula** to achieve the results you want in life.

You see, even if you work your socks every day in pursuit of your goal, **you'll never see the sunset if you keep on running east!**

You can work as hard as you want but if you don't know the secrets to attaining breakthrough success in life, then I'm sorry, but you'll definitely be working hard *all* your life.

Why So Few People Ever Attain The Success They Deserve In Life!

Here's a true case study for you:

In 1953, Yale University conducted a survey of its graduating seniors asking how many of them actually had specific goals written down for their future.

The answer?

Just 3%.

Twenty years later, researchers polled the same group and discovered that the 3% who had written down their goals had **accumulated 3 times more wealth than the rest of the 97% combined!**

This also means that one successful person had accumulated 97 times more wealth than the average guy!

Picture this: If the average person accumulates \$250,000 of wealth in a lifetime (which is very achievable), then the successful person would have accumulated \$24,500,000 in comparison!

Does that blow your mind!?

And you know what?

I bet that 97% worked just as *hard* as the top 3%.

So why is it that just 3% managed to accumulate three times more wealth than 97% combined!?

Because the top 3% knew the secrets to attaining personal success and they used it to their advantage. And it's not just about writing your goals down on a piece of paper, because if that alone was the key to success, we'll be seeing more successful people.

There's much more to creating personal lifetime success than that. **It's about knowing the right way to run if you want to see the sunset.**

I know you are looking for the one thing that will answer all your questions about how you can attain lifetime success.

You are looking for the one thing that will end your confusion right now! So that you no longer have to keep on jumping through all hoops, which only leave you even more confused and further from where you actually want to reach in life.

Bark Up The Wrong Tree And I Guarantee You Will Not Be Getting What You Are Looking For!

I should know because I once worked *hard* to achieve my goals, but I never got there.

You see, you need to know the secrets of attaining personal success before you will ever be able to achieve the success you want!

It was only when I learnt these success secrets, only then did I achieve my breakthrough results.

And it's because if a wash-out failure like me can achieve the results I managed to create, I believe that ANYONE who knows the same secrets of success can mentally orientate himself or herself to achieve success in any area.

And that's why I created this webpage.

I want you to learn how to equip yourself with the mindset, skills and behavioral patterns to mentally orientate yourself to achieve success in any area.

I want you to arm yourself with the Patterns Of Excellence which took me 15 years to master so that you can be ahead of the curve to master your mind and design your destiny – whatever the external circumstances.

"Wouldn't Be Surprised If I Made A Million Dollars After Going Through This Book!"

The book is written as though Adam and Stuart are presenting an actual weekend seminar, so the words have power and the communication style is intimate and seems to resonate with the soul! For a non-fiction book **this is one heck of a page turner!**

From the opening page I made the decision to give this book all I have got. **I have wanted to learn NLP from a perspective that is new to me and from world renowned trainers.**

I know from friends in Singapore and previous contact with Adam that he communicates truth with integrity, not a bunch of filler or garbage.

When I got to the actual price, whilst contemplating parting with \$47, I was absolutely shocked to find out the bargain on offer, so much I was so excited about the opportunity I got butterflies & that is no joke. I am serious about development and leading an exceptional life.

I have bought a course from Adam before and I know he really delivers because **my bank balance has swelled since applying just a few nuggets of wisdom** and there isn't much better proof than that when it comes to judging a self-improvement course!

After going through this book, **I immediately discovered how I could have control over my emotional states.** For example, this weekend I foolishly got a parking ticket for taking a business lunch on a Sunday and not checking if there were still charges for parking on a Sunday.

Before this book, that would drive me crackers and there would be anger directed outward at the world, society, myself, my family and detriment to all my life as I would try to medicate the feelings with food, more anger, denial and what have you.

However, within two hours I was "sending out love" to the warden and feeling so immensely grateful for the lesson learned as well as I found out how to get 50% off the fine. It was a blessing in disguise!

Secondly, my performance in trading will improve 5000% this year. **I would not be surprised if I make a million dollars in the next year.** Thirdly, I have come away with a deeper honesty and understanding in my personal relationships (including and especially marriage).

I would recommend this book to anyone who knows they have what it takes deep down but if you honestly look at your results you know you are not fulfilling that potential to **reach towards the destiny you really and truly desire and deserve.**

Expect transformation as you pick up skills that are proven by the results people have had with them, and guess what, with this technology, you are no different and CAN achieve your goals. **Grab this book, read it diligently and apply it with faith and determination** and you will find this out first hand.

"Eternally Grateful To Adam And His Course!"

Master Your Mind, Design Your Destiny has changed my life completely. It is one of **the most comprehensive, easy to follow step-by-step courses I have ever done.**

Previously to reading and following Adams' course, I had read what seemed like every book, listened to all sorts of positive thinking tapes, I'd even watched the movie "The Secret" so I knew how powerful the mind is, and how it works. So why and what was I doing wrong? Why wasn't I wealthy yet?

If I supposedly had the answers, and knew the hows, what was I missing? I believed I had the Mindset, at least some knowledge, I knew the laws of attraction, Yet, Why wasn't that enough? Why was I still getting nowhere? And it certainly was not the lack of trying or hard work. Believe me I had tried everything, with little or no success before this.

After finishing Adams' Course, **I finally had the answers I needed** and the exact reasons why I had been failing miserably, and had been so unfocused, even after knowing what I had already learnt. All My Aha! moments were right there, in plain English, on the pages in this course.

I couldn't believe it..... It honestly brought me to tears, realising what I had been doing wrong, and best of all **how I could change everything for the better.** You know the saying, "When the student is ready the teacher appears" before this course, I thought I had been ready for years, and even had a few great teachers, but for reasons unknown to me at the time, Nothing had really sunk in, Until I fully understood the whys from Master Your Mind, Design Your Destiny.

My whole life is changing for the better daily since, **I am certainly more focused, I am only finding great opportunities that I am having success with, and all the**

resources that I need to move forward each day. And I believe it came about from acknowledging what I learnt from Adam and for that I am Eternally grateful.

Don't get me wrong, I still have good days and bad days, like everyone else, It is how you learn and your perception of these that will ultimately put you in the winning circle! And this course will teach you exactly that and so much more! Don't just wish for success, **Get this course, Follow it, Do it, and you too can have it!**

Sincerely
