**You've found a critical, life-changing education worth buckets of money! How so? **Because had you known 10 years ago what you're about to learn today, you wouldn't have left thousands (even millions) of cash money on the table...** Imagine what this can do for you in the very near future...**

Each one of the skills discussed will improve your success dramatically, putting you on the fastest path to doubling quadrupling even ten folding your income. **I only wish I had had this kind of information earlier in my career!** It would have limited the lessons I had to learn through the school of hard knocks."

It's true, thousands have already used the world's first and only fully comprehensive persuasive training program, [Magnetic Persuasion](#), to perfect both their "new-school" career skills and their understanding of persuasion, motivation, influence, and human behavior... **students consistently double and triple their incomes.** (Pstt... and it doesn't even matter what industry they work in). Persuasion makes that much of a difference. Now, with your permission, I want to share this revolutionary program with you.

Invest just a few short minutes a day and you'll finally stop leaving loads of cash on the table and missing once-in-a-lifetime opportunities. You'll finally set the record straight, settle all debts, and make what you're really worth. [Here](#) are just a few recent testimonials from the experts and folks just like you...

Take a risk-free test drive of my one-of-a-kind [Magnetic Persuasion eCourse](#).

- You will never again be forced to chase after customers and clients.
- They will flock to you just as metal filings are pulled toward a powerful magnet.
- They will literally beg you for your product or service.
- And they'll come back for more . . . again and again!

Literally everything you want in life, whether it's more money, a raise, a new boat, or better relationships, is on the other side of effective and lasting persuasion! But guess what?... persuasion is a learned skill! Nobody is born a master persuader. Take the challenge to learn and use the Laws of Persuasion and watch your income sky rocket and your life DRAMATICALLY improve.

Here's a stat to remember, numerous studies have proven that the average persuader only uses 3 or 4 persuasive techniques. The master persuader uses 7 or 8. I teach over 100 techniques. What would happen if you were to learn just 10 or 12?... You get the idea.

**FOR EXAMPLE: These 4 Persuasion Tips alone will double your income!**

- How more "closing" skills will actually DECREASE your success rate.

- The shocking percentages of how many people actually trust you...
- Why your outgoing personality could be your greatest persuasion liability.
- Why price, no matter how high or low, is irrelevant!

According to Napoleon Hill, author of *Think and Grow Rich*, persuasion is the "secret ingredient" that ALL successful people possess. Do you have the secret ingredient?
